

Certified Supply Chain Professional (CSCP) Online Course

The Certified Supply Chain Professional program has been designed by APICS to provide the skills necessary to understand and manage increasingly complex Supply Chain Networks from a practitioner's perspective.

Building on your experience and previous SCM qualifications, achieving the APICS CSCP designation, will enhance and consolidate your supply chain management knowledge and expertise and provide you with an internationally recognised supply chain certification.

The APICS CSCP program is structured in eight modules examined in one 3.5 hour exam.

Module 1: Supply Chains, Demand Management, and Forecasting

Module 2: Global Supply Chain Networks

Module 3: Sourcing Products and Services

Module 4: Internal Operations and Inventory

Module 5: Forward and Reverse Logistics

Module 6: Supply Chain Relationships

Module 7: Supply Chain Risk

Module 8: Optimization, Sustainability and Technology

Note: You must have pre-approval from APICS to register for the APICS CSCP exam.
